

**PHARMACEUTICALLY ACCEPTABLE SALTS OF SERTRALINE**  
**AND PHARMACEUTICAL COMPOSITIONS THEREOF**

**ABSTRACT OF THE DISCLOSURE**

The present invention is directed to certain pharmaceutically acceptable salts of the  
5 therapeutically potent selective serotonin reuptake inhibitor, sertraline:

and pharmaceutical compositions thereof, wherein said salts are selected from the group consisting of the p-toluenesulfonic acid salt, the fumaric acid salt, the benzenesulfonic acid salt, the benzoic acid salt, the L-tartaric acid salt and the (-)-camphor-10-sulfonic acid salt.
